This stereo system has been designed on the basis of the EX-222.1 which was acclaimed on numerous occasions and in particular by the French Classica magazine and was awarded by a « Choc »!

It delivers a power of 2x40W RMS into 8 Ω and 2x60W RMS into 4 Ω. It includes a CD player (MP3/WMA) as well as FM RDS and AM tuner with 40 station presets. Its USB slot allows you to play your digital files on USB key in MP3 and WMA formats.

The EX712.2 includes a WIRELESS receiver allowing you to listen to music from your smartphones and tablets. It has one analog audio input (RCA Stereo), 1 digital input (Optical and / or Coaxial connections) allowing it to connect to TVs last generation.

Finally, it provides a Subwoofer output to connect an active subwoofer. This output as a High-pass (100Hz) filter that can be switched on to optimise the listening in 2.1 configuration. Let this switch on « Large » position if you do not have a subwoofer.
