EX-202 This BC Acoustique Integrated Amplifier has been designed with an « audiophile spirit » and with the idea to allow music lovers looking for real « music fidelity » to be satisfied. The EX202 can deliver an output power of 2x40W RMS on 8 Ohms speakers and, thanks to its massive 250VA transformer, 2x80W RMS on 4 Ohms. The EX202 is equipped with 6 audio inputs including one digital (Optical/Coaxial) that allows connecting a modern TV on its digital audio output. A jack 3,5mm input is also available on the front panel to allow the user to connect any kind of audio portable player. A headphone output (jack 6,35mm) is also available. The EX202 also offers a « Pre-Out » RCA that allows to make a bi-amplifying capability (with another power-amp).
